

A Recognized School District

## NEWS RELEASE

January 27, 2012

### **Educators Train to Help Students Perform Career Planning Research**

This fall, more than 50 Alief ISD educators, including content coordinators, counselors, librarians, technology specialists, special education personnel and classroom teachers, attended a district-wide training program for the Kuder Career Planning System. Training was facilitated by the Alief ISD Career and Technical Department. Participants were taught how to use the Kuder System for pinpointing career interests and then searching for colleges and careers that relate to the interest.

The training was designed to ensure that plenty of staff members are well versed in the use of the planning software to assist students who are interested in using the program. Alief ISD students have access to the Kuder System from seventh through 12th grades. It can help them plan for their future using extra dynamic resources at an earlier stage of their educational path.
