2 Ways to Reserve Tickets:

1. **BEST AVAILABLE:** Select "Best Available" tab, select the number of tickets desired. The system will assign you the best seats currently available and closest to the stage.
If we no longer have the number of seats, you requested together in one row, you will receive an error code. You will then need to choose your individual seats.
2. **INDIVIDUAL SEATS:** Click on "Seating Chart". Select the section you want your seat in and choose any "blue seat" that is open. Seats do not have to be selected in the same section or same row.

PLEASE NOTE: Due to Berry Center seating configuration, it is possible that all 6 seats will not be next to each other
