74-70	D
69-Below	F

GRADUATION PLANS

*Distinguished Level of Achievement (DLA)

*Foundation High School Program plus
Endorsement * Foundation High School
Program (FHSP)

ENROLLMENT

Hastings High School students have a high rate of mobility. In addition, we have an increased rate of non-education responsibilities amongst our students on our campus. For example, students who are parenting, working to support family, etc. To help support our students, we have an additional program called SOAR which is a one-year basic academic program for high school students who are at least 16 years old and who meet the program qualifications and are not on track for graduation.

CAREER AND TECHNOLOGY

Alief prides itself in offering a Career and Technology building which offers courses that lead to students enrolling in college without remediation, entering the workforce with a credential or certification or entering the military prepared.

CTE is working with the department of Counseling and Guidance to increase the number of annual graduates who earned an industry-based certification, Level 1 or Level 2 Certificate, an AAS Degree.

STUDENT SUCCESS

Indicators related to CTE	Cohort 2018	Cohort 2019	Cohort 2020	Cohort 2021
Number of Students- Nonduplicated				
Industry Based Certification	88	145	255	210
Level I or Level II Certificates (from Community College)	NA	24	25	24
Associate's Degree	NA	27*	21*	33
9 hours of CTE dual credit separate from ISIA			4	54

INNOVATIVE ACADEMY

The Innovative Academy is a P-TECH Early College Program, which partners with the Houston Community College and consists of two programs - Pharmacy Technician and Construction Technology. Both pathways offer students the opportunity to earn real-world workplace certifications and transferable college credit. In a P-TECH program, students earn a high school diploma, an industry-recognized associate degree, and gain relevant work experience in a growing field. The schools create a seamless program for students to acquire the academic, technical, and workplace skills that employers need.

Class of 2021
