HISTORY & STUDENT PROFILE

The Texas Education Agency awarded the Alief Independent School District a grant to help create and sustain an Early College High School. In partnership with Houston Community College (HCC), Alief Early College opened with its first freshman class in August of 2009. AECHS combines high school and dual credit college coursework in a supportive, yet rigorous educational environment.

Located on the HCC Alief Campus, AECHS gives prospective first-generation college students and other typically underrepresented populations in higher education the opportunity to earn a distinguished achievement high school diploma and college hours toward an Associates Degree.

All students are welcome to apply to Alief Early College High School. Students are selected by a lottery which targets the populations outlined in the TEA Early College Blueprint.

https://tea.texas.gov/ECHS_Blueprint.pdf

Priority selection will be given to students whose applications are submitted by **February 28, 2020**. All others will be placed on a waiting list. Number of selected students will depend on enrollment counts.
